
Industrial Applications Offshore, Oil and Gas

Atlas Copco

GREENFIELD

Our scope of supply includes compressors for:

- Nitrogen generator gas boosting
- Inert gas blanketing
- Nitrogen boosting for oil well stimulation
- Motion compensation of drilling rigs
- Seismic surveying
- Breathing air
- HELIOX recovery
- Large diesel engine / generator start
- High pressure gas storage
- Gas pipeline high pressure testing and drying
- Flare gas compression
- Enhanced oil recovery

GREENFIELD is your specialist for high-pressure systems. As a pioneer in this business we have been able to maintain and even improve our strong market position providing total solutions – from a single compressor to complete systems.

Today, GREENFIELD is the technology leader worldwide with its high-end premium products engineered in Switzerland. With a century of experience in high-pressure technology and the fact of thousands of compressors installed worldwide, GREENFIELD is ready to serve your needs for peak performance and success in the market.

As part of the Atlas Copco Group GREENFIELD has global access to over 150 markets, which are served through our production facilities either in Switzerland, Brazil or in the United States.

This comprehensive Sales and Service Network assures our customers direct access to the most reliable and technologically advanced equipment available.
